Note: This is a 4 month program for male youth ages 12 - 18 and offers beds for probation-referred clients (provincewide) and fee-for service beds (nationwide). Clients live with PLEA Family Caregivers in the community and participate in programming at the treatment centre in Surrey. Clients must be referred. For probation referrals, the youth must have a 6 month or longer probation order that directs them to attend a full-time alcohol and drug treatment program. Program also accepts private referrals from parents, social workers, community-based addiction counsellors and other professionals. Stabilized methadone clients and CSC clients are accepted. Program offers teacher supervised education. Probation referrals are funded by MCFD.
